For professionals

WELCOME TO

PMU-line[®] 

The
global provider in
Permanent
Makeup

Aleksandra Kjaersfeldt
CEO and Founder

Introduction.

This is truly above and beyond...

Dear professionals,
A very warm welcome to **PMU-Line®** Products and Academy.

The PMU-line® concept has been established especially for the professional with the Highest Quality Products. Absolutely no compromises have been made at any stage in the selection of raw materials and the production process to deliver 'Best in Class'.

Our mission is to deliver A GOOD PRODUCT. And what can you expect from a good product?

It proves the importance of the raw materials used, and with the combined experience of biochemists, doctors and cosmetic tattoo artists, optimum treatment results. Consumer feedback is acknowledged as the key to quality criteria too.

EVERYTHING matters when you create a pigment, a digital device, a needle, and aftercare products. The consummate professional will, from the first touch, sense a truly good product. The product which makes the treatment run smoothly and quick and when the skin gives the best response.

Permanent makeup is quite a huge decision for a consumer – and there is no doubt in how much responsibility the PMU-artist carries on his/her shoulders.

That is why the products to be used for the PMU procedure should be unquestionable – they should be perfect.

All the talented PMU-artists, beauticians, Lash & Brow stylists, and academies around the world are demanding a revolutionary product line that takes the industry to a new level. Well, here it is! You are in exactly the RIGHT place – we unite quality products with good workmanship, giving an individuality and dignity to all our products.

Our success is measured only by your success. We strive for continuous improvement and a passion for producing the very best products available anywhere.

We hope to impress you and keep you inspired!

Truly yours,
Aleksandra Kjaersfeldt
founder-CEO

*"Every job is a self-portrait of the person who did it.
Autograph your work with excellence!"*

PMU-line ®

Makeup

ABOUT US

THE BRAND **PMU-line®** IS A PART OF THE INTERNATIONAL COMPANY DERMATECH-GROUP APS WITH EUROPEAN HEAD OFFICE IN DENMARK

PMU-line® is a brand under Dermatech-Group, which is a collection of brandt that offer training, pigments and accessories for virtually all types of beautifying treatments.

Under Dermatech-Group you will find:

Manufacturer and worldwide distributor of medical and cosmetic products and equipment for professionals, Globally certified educations and courses in PMU and anti-age treatments.

PMU-line Products of the highest quality and safety

Designed and produced in EU.

A core value of ours is that permanent makeup treatments should look as natural as possible.

Specifically this places great demands on e.g. the stability of color in the treatment, which many current brands on the Danish market lag behind.

Likewise, it requires quick and easy healing (which many dream of).

A natural result is something that leads to happy customers - and that can become a reality with PMU-line's permanent makeup.

With PMU-line's equipment and pigments, both well-established and newly trained permanent makeup artists can create amazing results with absolute safety and of top quality or their customers thus securing a secure future for their business and meeting EU regulatory requirements.

PMU-line ®

We do not compromise
on quality

ABOUT US

We do not compromise on quality

EU-certified Products and Equipment

Our products are all EU-certified and approved by the Danish Health and Medicines Authority. We even had an advisory role to the Danish Health and Medicines Authority's development of the Danish health rules within permanent makeup - precisely because our knowledge of the treatment methods and products is so extensive and respected.

You can therefore expect quality and safety when you buy both your products and your training course at PMU-line.

If you need further information with the purchase of products, you are also guaranteed the best advice within the permanent makeup equipment and accessories industry.

You can buy machines for permanent makeup and color pigmentation, various starter kits for our educational courses, needles, pigments, eyelashes and various other accessories. Our skin products are hypoallergenic and among the best on the market.

The content of glue, glue dissolver and primer does not irritate the skin, as is often the case with similar product types. If you need to expand your knowledge of permanent makeup, we also sell manuals on the subject. We deliver both inside and outside the EU.

If you work with permanent makeup, or have plans to start up in the industry in the future, we advise you to only buy machines and products that have been thoroughly tested and approved by the relevant authorities.

The price of the approved products is often higher than non-approved products, but this is because of the difference in quality.

Do not compromise on quality, as it will result in poor results for your customers, and also for your overall work.

You run the risk of your customers being injured or having allergic reactions.

Instead, choose good products and machines that are developed by reputable manufacturers and live up to all legal requirements and recommendations.

Most of our clients are trained therapists and colleagues from other clinics. They are Professionals who all know what quality means for treatment.

Do yourself and your customers the great service of using PMU-line quality-assured machines and products. It always pays to invest in quality and good customer care.

OUR PMU DEVICES

high performance
high standards

DEVICES STARTER KIT & ACCESSORIES

Devices and needles, pigments, and accessories – you find a range of products for micropigmentation in different combinations – just select the kit which matches your preferences best and get started!

DEVICES

Light and transportable equipment, which is designed by experts from doctors, estheticians, and professionals in the field of micropigmentation and Permanent Makeup to give natural and painless results.

Scalp, derma pigmentation, permanent makeup, and medical tattoo – you can perform all types of professional treatments with our equipment, made in EU. 3 years warranty.

STARTER KIT

The best in pigments and equipment – precisely selected set of needles, machine, pigments, and aftercare products for a good professional start.

OUR PMU DEVICES

high performance high standards

PMUpower[®] DEVICE MS-5

Quality dedicated to permanent makeup and medical tattoo

PMUpower[®] Device is ultra-efficient and is very quick to set up with touch screen technology

It is light and transportable, and is designed by experts: doctors, aestheticians and professionals in the field of micropigmentation and Permanent Makeup to give natural and painless results. A light and ergonomic handpiece in anodised stainless steel, with screwable and removable intermediate section that can be sterilized..

Benefits of PMUpower[®] Device

PMUpower[®] Device is designed by and for professional Permanent Makeup therapists. It is developed for the best possible ergonomics for all types of users (men, women, right-handed, left-handed) and for all types of techniques (reconstruction, permanent make-up, tattoo ...).

Its implantation speed is modular and constant, allowing for professional precision work while limiting trauma to the skin. Its needle output is accurate within 0.3 mm over an amplitude of 3 mm and the current level automatically adapts to the condition of the skin so you get:

- Easy and quick change of needle modules
- Easy handling
- High standard characteristics
- Medically approved
- Sterilizable handpiece for optimal hygiene
- A powerful motor that adapts to the skin for precise and gentle pigmentation
- 3 year warranty
- 100% made in EU

The set contains:

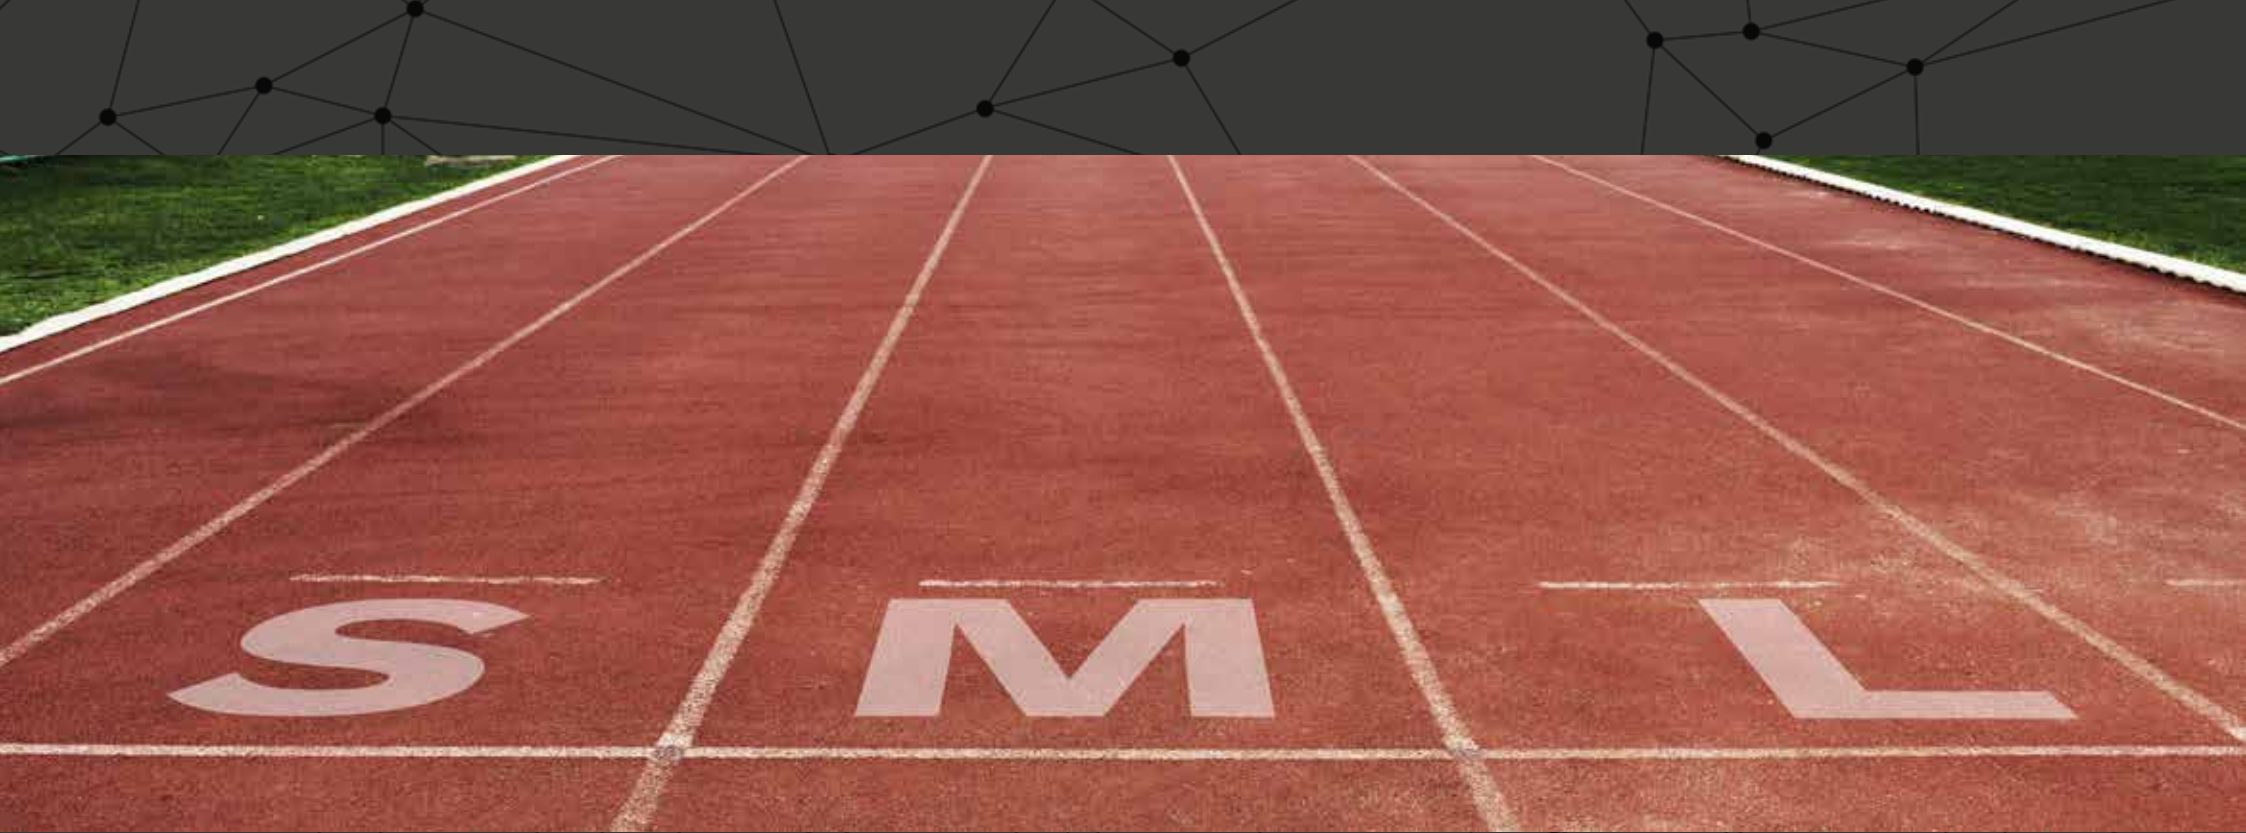

- Control unit with a powerful motor that adjusts to precise and gentle pigmentation
- Handpiece
- Handpiece holder
- 2 sterilizable spacers
- Pedal
- Power supply
- Delivered in an exclusive transportable box

Technical specifications

- Length: 12.2 cm maximum, regardless of needle output
- Pen diameter: 20 mm
- Handpiece diameter: 10mm
- Materials: anodized stainless steel
- Weight: Only 80 gr
- Speed: 50 to 160 beats / s
- Complies with all EU directives
- Low voltage: 73/23 / EEC E.M.S.
(Electromagnetic compatibility): 89/336 /EEC

Disposable sterile needle modules

26 different needle modules are easily and firmly connected to the PMUpower[®] Device using a 3 x lock bayonet design. It prevents product leakage or contaminants in the handpiece and ensures a secure connection in the handpiece during treatment.

OUR PMU STARTER KITS

Perfectly assembled
starter kits for professionals

PMU Starter Kits

The best way to a good start – equipment, needles, accessories and pigments perfectly assembled for a PMU-artist. Just find the Starter Kit which best suits your or your students' needs: microblading Starter Kit, Small/Medium or Large PMU Starter Kit, and PMU Accessories Starter Kit.

About Our Products

Pigments explanation

MULTIPLE USE STERILE PIGMENT- MANUFACTURED IN MEDICAL LABORATORY IN EU - SINCE 1999

Manufactured in EU in a controlled atmosphere in a certified laboratory ISO 9001, EN13485 and GMP standards,, PMU-line pigments are the result of a precise blend of organic and mineral pigments, which are subject to rigorous controls: analysis of heavy metals and aromatic amines.

They are in perfect conformity with the recommendations of European legislation, one of the most rigorous in the world. The PMU-line pigment is easy to use thanks to an ultra-precise pump and remains sterile between each use. Without preservatives, water or petrochemical products, PMU-line pigments are adapted to the skin's pH.

100%

- Completely sterile and hygienic
- 5-year shelf life after production (unopened)
- 100% biocompatible and perfectly matched to the skin's natural pH
- Produced in the EU in a certified medical laboratory since 1999 in accordance with ISO 9001, EN13485 and GMP
- Ingredients and all base materials are 100% natural origin environmentally friendly and vegan

0%

- 0% preservatives
- 0% latex
- 0% PPD
- 0% petrochemical derivatives
- 0% nanoparticles
- 0% water
- 0% paraben
- Not tested on animals

Our pigments

Pigment Categories

In creating pigments for micropigmentation we have paid a special attention to many important factors. That is why every category of the pigments contains a perfect balance of organic and mineral pigmentation developed precisely for the area or the method of application to the skin.

Microblading pigments have different viscosity than eyebrows pigments for the machine method. Lip pigments have different colorants for brown and beige shades than eyebrow pigments. The skin and scalp pigments have a particularly strong coverage ability.

Enjoy the great choice of possibilities!

OUR PIGMENTS

probably
the best
PMU pigments
in the world

All Our Pigments

To ensure that your permanent makeup is high-quality and risk-free, all of PMU-line's pigments have the following characteristics:

- Strict selection of highly pure raw materials
- Bacteriological controls of the raw materials
- Manufacture and packaging in a controlled atmosphere
- Precise mixing of mineral and organic pigments

- Excellent tinting strength
- Chromatic stability (thanks to the choice of raw materials)
- Pigment dispersion suited to the skin's pH, without preservatives
- Sterilization by gamma ionization (approved industrial method) at a dose of 25kGy

- Sterilization control using a validated and approved process
- Sterility maintained for 5 years
- Traceability by batch number
- Reproducibility of color (spectrophotometry)
- Qualified, trained staff
- 100% EU design and manufacturing

About Our Pigments

Pigment Color Chart

PRODUCT DETAILS

Perfect dosage and sterility throughout - the pigment comes in an airless bottle which is easy to use thanks to an ultra-precise pump and it remains sterile between treatments.

Safe and fully compliant with relevant legislation. Passes the most stringent testing described in Resolution ResAP (2008) 1 and new REACH regulation.

Complies with European standards for medical devices CEIIB.

Labelling complies with European legislation on tattoos and permanent make-up products and makes it possible to identify and trace the products.

Produced and packaged using the latest medical technology in clean rooms with a class C and D controlled atmosphere.

They are then sterilized by gamma radiation at a dose greater than 25 kGy in accordance with validated industrial applications.

The precise combination of organic and mineral pigments is subjected to strict control and analyzed for heavy metals and aromatic amines.

BENEFITS

1 bottle has a MINIMUM of 40 treatments

Microblading pigments have high viscosity, which optimizes pigmentation.

Amazingly easy to work with and treatments take significantly less time.

Ultra-fast setting and long-lasting results (no need to replenish).

Maximum pigment concentration guarantees long-lasting, stable color.

Developed for all types of pigmentation (PMU, scalp, areola pigmentation, microblading, softap, scar and vitiligo camouflage), PMU-line pigments offer you perfect compatibility with all equipment and treatment techniques.

The color won't shift to red or blue thanks to the "biocoating" of pigment particles.

It won't evaporate or dry out during treatment.

Stable, intense shades for all skin types and ethnicities.

The wide range of shades allows you to offer your clients the perfect custom pigment for their skin type and guarantee them a natural look.

Our Microblading Products

Microblading Blades

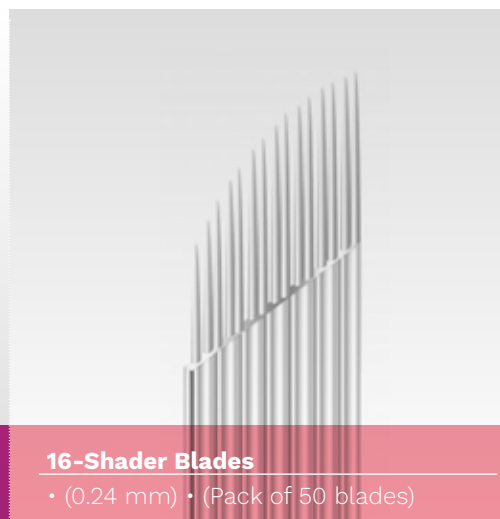

12-Nano Slope Blades

• (0.18 mm) • (Pack of 50 blades)

Application

- the best leaves for crispy hairstrokes (dry and normal skin)
- perfect for drawing short and medium hairstrokes
- only one or two rounds per hairstroke is enough to ensure durable color

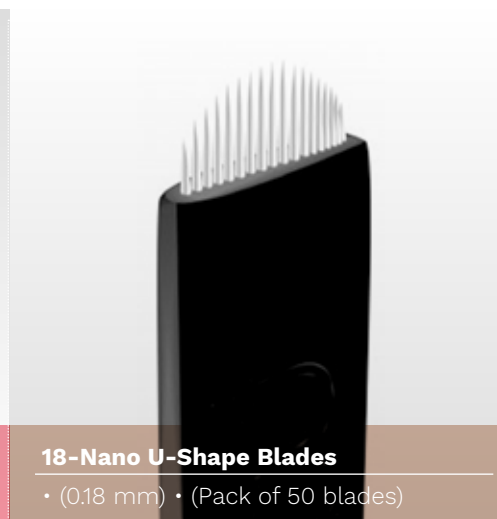

16-Shader Blades

• (0.24 mm) • (Pack of 50 blades)

Application

- use the tapping technique with a light pressure
- face always the longest needle in the same direction as our movement goes
- do all shading always at the end of the treatment (in other words after hairstrokes)
- use manual shading for ombre eyebrows with one or two pigments
- suits perfect for coverup treatments, especially on scar tissue

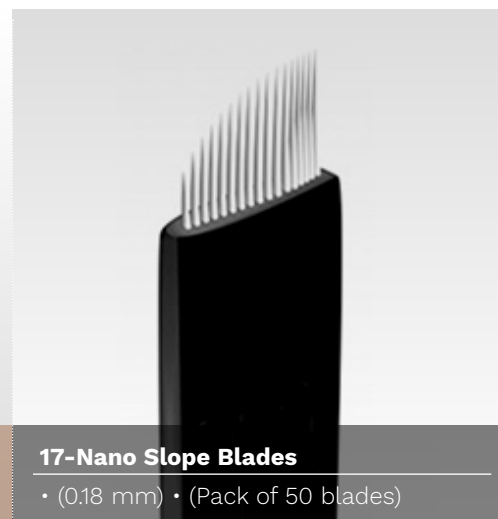

18-Nano U-Shape Blades

• (0.18 mm) • (Pack of 50 blades)

Application

- are good for drawing curvy hairstrokes
- the best leaves for crispy hairstrokes (dry and normal skin)
- perfect for drawing short and medium hairstrokes
- only one or two rounds per hairstroke is enough to ensure durable color

17-Nano Slope Blades

• (0.18 mm) • (Pack of 50 blades)

Application

- the best leaves for crispy hairstrokes (combined and oily skin)
- perfect for drawing long and medium hairstrokes
- only one or two rounds per hairstroke is enough to ensure durable color

MICROBLADING STARTER KITS

complete and perfect selections

About Our Products

Starter Kits Microblading

Among our Microblading Products you will find a range of special products. Our microblading pigments are very rich in color and they belong to high viscosity pigments, which guarantees crispy durable hairstrokes. You find also nano blades for hairstrokes and shader blades for powder effect, so you can create impressive natural results.

Microblading Starter kit (50 treatments)

- Portable leather bag
- Aftercare cream (30 x 5 ml) (each aftercare is enough for 3 treatments: start-up treatment and two refills)

- Brow ruler
- Exercise Skin Plain
- Exercise skin 2D Brows
- PMU lotion 3-in-1 (used during treatment)
- PMU FIXATOR
- Plastic foil for cosmetic use
- 2 x Meso Pain Reduce (50 ml)

Aftercare creme (30 x 5 ml)

Aftercare cream for finishing permanent makeup or medical tattoo.

Proper healing of permanent makeup plays a big role in the final result, and therefore every treated area needs to get proper aftercare.

With PMU-line's aftercare cream, you benefit the skin with the healing ingredients.

At www.pmu-line.com you can see our complete range of our Microblading products

ACCESSORIES & HOME CARE

your clients beauty is
your profession

About Our Products

PMU Accessories and Home Care

LOTION		At PMU-line® you can find everything in permanent makeup accessories. Most of the webshop's permanent makeup accessories are produced by PMU-line®. If this is not the case, we still guarantee the quality of the products.
FIXATOR		Our accessories are quality assured and thoroughly tested by both the EU and the Danish Environmental Protection Agency, but also by many of our therapists.
REMOVAL		We only sell and use permanent makeup accessories that we know and can vouch for. Quality products for the conscious therapist.
TOOLS		Here you will find all must-haves for treatments with permanent makeup, different types of anesthesia, professional drawing pencils, measuring instruments and much more.

Accessories for Permanent Makeup (Starter kit)

PMU Accessories Starter Kit

- Portable leather bag
- Golden Ratio eyebrow calipers
- Aftercare cream (30 x 5 ml)
- Pigment cups set (60 pcs.)
- "Perfect Brows" kit (Incl. Special pencil sharpener)
- Microbrushes
- 2 x Meso Pain Reduce (50 ml)
- Mapping String (10 m)
- Plastic foil for cosmetic use
- Antibacterial mask
- PMU lotion 3-in-1
- Color scale (for determining color type)
- Tweezers, stainless steel, sterilizable

We have gathered together the required and most useful tools for the permanent makeup treatments: before, during and after the procedure.

For the mapping of the brows, anesthesia, skin cleansing, keeping your tools sharp and clean, aftercare for the client – all these will be an easy and professional task with the tools from Dermatech-group.

EYELASH EXTENSIONS

for natural and
safe results

Our Products for Eyelash Extensions

Quality tweezers for all types of eyelash extensions.

Huge selection of all kinds of eyelashes. We ship worldwide every day.

Everything is produced for DanishLash (A brand under the dermatech group) and there has been no compromise on quality.

We have everything in eyelash extensions products and accessories

At PMU-line®, we are proud of our eyelash extension products. We sell our own Eyelash Extensions of the brand DanishLash. It has taken us over six years to develop them, but it has definitely been worth the trip. The result has been nothing short of brilliant, which both customers and therapists agree on. In addition to

the actual eyelash extensions, you will also find all the other products you need for your eyelash extensions treatments. DanishLash products offer everything professionals need for the eyelash extensions procedure: before, during and after the treatment.

Combi kit - Lash, Browlift and Eyelash extensions (starter kit)

Everything a professional Lash & Brow Stylist needs - both for Eyelash Extensions (Single and Volume), Lashlift and Brow lamination, tinting and lifting of eyebrows / eyelashes.

Luksus Eyelash Starter Kit (DanishLash)

Our Bestseller Eyelash Kit for Single and 6D eyelash Extensions.

LASH & BROW BIOLIFT

looks simply
fantastic

About Our Products

Lash & Brow Biolift

We offer the best lines by Biosmetics and ByBexter for LASH AND BROWS BIOLIFT and KERATIN LAMINATION. A wide range of professional products for Lifting, Tinting, Styling as well as Aftercare products for all types of eyelashes and eyebrows: from light Scandinavian to dark Mediterranean.

Lash & Brow by Biosmetics

Biosmetics Intensive is a line for darker eyelash and eyebrows, where the Lifting, Tinting and Styling shall be bright, durable and effective.

This type of Mediterranean hair needs a special hair focused on hydration, elasticity and vitamins as they already have enough natural keratin.

Lash Lift and accessories By Bexter

ByBexter eyelash and eyebrows lifting products suits sh and eyebrows lifting products suits perfectly Scandinavian hair structure as the Perming Lotions are not aggressive and create a great lift without risk of burning the lashes/eyebrows.

Keratin treatment strengthens the fine hairs and already after 4 weeks the thickness and lengths of the hairs are visibly improved.

Lash & Brow Starter Kit

We have 11 different starter kits that are assembled according to every need.

Starter kit for lashes and eyebrows, tinting and much more.

Only with us you will find such a large selection of starter kits for every taste

LASH & BROW BIOLIFT

all you need for
startup
